VOLUNTEERING

Code for Students

Web Developer Assistant

Virtual University | May, 2022 – May, 2023

- **Engineered web tools** that guided students through software engineering projects, improving project delivery times by 15%.
- **Architected and deployed** 5+ full-stack PHP web applications tailored for Virtual University Final Year Projects (FYPs).
- **Built education systems** (Faculty Directory, Notice Board, Exam System) featuring secure user authentication, role-based access control (RBAC), and session-managed online testing modules.
- **Developed commercial and health trackers** (Leather Store, COVID Record) using multi-dimensional arrays for shopping carts and strict data validation systems.
- **Tech Stack:** PHP, MySQLi/PDO, HTML5, CSS3, JavaScript, Bootstrap, Apache Hosting.

STRENGTHS

- **Analytical Problem Solver**
Skilled at identifying logic flaws and performance bottlenecks during code reviews, utilizing strict object-oriented (OOP) principles to write clean, reusable, and stable Core PHP code.
- **Asynchronous Web Specialist**
Proficient in leveraging JavaScript and AJAX to build dynamic, responsive user interfaces that communicate seamlessly with backend PHP scripts without page reloads.

FAZAL ABBAS SHAH

PHP DEVELOPER | WEB APPLICATIONS | DATA-DRIVEN SOLUTIONS

SUMMARY

Passionate PHP Developer with a strong foundation in Object-Oriented Programming (OOP) for building dynamic, data-driven web applications. Experienced in collaborating within team environments to seamlessly integrate frontend interfaces (JavaScript/AJAX) with secure backend logic. Committed to writing clean, maintainable code using MySQL database management to streamline business operations and enhance user experiences.

SKILLS

PHP Programming · PHP OOP · SQL Databases · JavaScript · AJAX · HTML5/CSS3 · Bootstrap · Git Version Control · Business Logic · Technical Leadership

EXPERIENCE

Interloper Inc

Little Elm, TX, USA
(Remote)

PHP Web Developer

03/2024 - 03/2026

- **Engineered dynamic, data-driven web applications** using Core PHP and MySQL, translating business logic into scalable backend workflows.
- **Championed team collaboration** by actively mentoring junior developers and assisting team members with debugging complex logic issues to meet strict sprint deadlines.
- **Designed and optimized relational databases**, improving data retrieval speeds and ensuring seamless data handling across platforms.
- **Integrated dynamic user-facing features** by writing clean JavaScript and AJAX scripts, enhancing the overall user experience of Interloper.com.
- **Improved project efficiency** by 20% through optimized coding solutions.
- **Documented development processes** meticulously, resulting in a 25% improvement in onboarding efficiency for new team members.

Web Developer Intern

09/2023 - 03/2024

- **Accelerated core PHP capabilities** and built a deep operational understanding of the enterprise platform (Interloper.com) under management guidance.
- **Collaborated closely with cross-functional development teams**, using Git and GitHub to safely manage version control and branch workflows.
- **Integrated third-party APIs**, successfully enhancing website functionality and expanding service capabilities for clients.
- **Contributed to code reviews** and assisted in identifying performance bottlenecks, ensuring adherence to clean coding practices.

EDUCATION

Virtual University of Pakistan

Lahore, Pakistan

Bachelor of Science in Mathematics

03/2018 - 03/2022

GPA | 3.25 / 4.0
